Product Information

Fog Filters

Fog filters create the effect of a mist or natural fog, bringing about a soft glow and flare, and taking the edge off excess contrast and sharpness

Standard Fog filters

These create a soft glow from highlights and produce a natural fog effect, lowering contrast without any stop increase.

Available in densities 1/8, 1/4, 1/2, 1, 2, 3, 4, 5.

Double Fog filters

These create a heavy fog effect but retain sharpness within the picture area. Contrast is substantially reduced.

Available in densities 1/8, 1/4, 1/2, 1, 2, 3, 4, 5.
